Please contact the Auto VEBA Call Center, **Benistar** at **1-800-236-4782** for a list of acceptable documentation.

Persons Not Eligible to Participate (Dependents do not include):

- Individuals on active duty in any branch of military service
- Parents, grandparents or other ancestors
- Grandchildren who do not meet the definition of dependent grandchildren and who are not claimed on you or your spouse's federal income tax return.

Children	Your biological children, stepchildren, legally adopted children, children for whom you have obtained court-ordered guardianship or conservatorship; qualified children placed pending adoption; grandchildren; and children of your domestic partner if you also cover your domestic partner for the same benefit. Your children must be on the federal income tax of the Retiree to be eligible to enroll in the Dental and Vision plans through the Trust.
Dependent Grandchildren	Your unmarried grandchild must meet the requirements listed above and must also qualify as a dependent as defined by the Internal Revenue Service on your or your spouse's federal income tax return.

A disabled child continues to be considered and eligible dependent as long as the child remains incapacitated, unmarried, dependent on you for principal support and maintenance, and you continuously maintain the child's coverage as a dependent under the plan from the date he or she otherwise would lose dependent status. A dependent child who loses eligibility and later becomes disabled is not eligible to be covered. A disabled child who was not covered as a dependent immediately prior to the time he or she would otherwise cease to be a dependent is not eligible to be covered.

What is Medicare? What Are Your Options?

You have important decisions to make when you become eligible for Medicare. Our goal is to help you understand your options and feel confident about choosing coverage based on your needs when you first enroll and every year after that.

What are the parts of Medicare?

Part A (Hospital Insurance)

Part D (Prescription Drug Insurance)

Part B (Medical Insurance)

Part C (Medicare Advantage)

When you first enroll in Medicare and during certain times of the year, you can choose how you get your Medicare coverage. There are 2 main ways to get Medicare:

What are the coverage choices?

Original Medicare

(Parts A & B) is provided by the federal government. It helps pay for hospital stays and doctor visits, but it doesn't cover everything.

You may add coverage by enrolling in one or more private Medicare or Medicare-related plans.

- **Medicare Supplement Insurance Plans** (Medigap) help pay some of the out-of-pocket costs that come with Original Medicare.
- **Medicare Prescription Drug Plans** (Part D) help pay for prescription medications. Original Medicare does not cover prescription drugs.
- **Medicare Advantage Plans** (Part C) offer an alternative to Original Medicare. Plans combine Part A and Part B coverage in one plan. They often include prescription drug coverage, too. Some plans offer additional benefits like coverage for routine vision and dental care.

PART

Quick Overview

PART A - Provides help with the cost of inpatient hospital stays and skilled nursing services following a hospital stay, plus some other skilled care

Description

Medicare Part A insurance helps pay for "medically necessary" care (care for an illness or medical condition) that involves an inpatient stay in the hospital. Part A also helps pay for a stay in a skilled nursing facility as a follow-up to a hospital stay, hospice care for the terminally ill and some skilled home health care for the homebound. Part A also helps pay for some blood transfusions.

PART

Quick Overview

Part B - Helps pay for doctor visits and outpatient care.

You cannot be denied Part B coverage. You may go to any doctor or qualified health care provider in the United States who participates in the Medicare program and is accepting Medicare patients.

Description

Medicare Part B insurance helps pay for a variety of medically necessary care — that is, care for an illness or medical condition. This includes services like doctor's office visits, care in hospitals and clinics when you are not admitted for an inpatient stay, laboratory tests and some diagnostic screenings, and some skilled nursing care at home, if you're homebound.

Part B also covers most doctor services you receive as a hospital inpatient, although other hospital services are covered by Part A. Part B is voluntary, but most people sign up when they first become eligible.

Medicare Part B is making it easier to get preventive care. It now covers an annual wellness exam plus additional preventive screenings at no cost to you.

Quick Overview

PART C - Provides help with the cost of inpatient hospital stays and skilled nursing services following a hospital stay, plus some other skilled care

Description

Medicare Part C plans are usually referred to as “Medicare Advantage” plans. All Medicare Advantage plans are run by private companies, and they all combine coverage for hospital stays with coverage for doctor visits. You can choose a plan that includes prescription drug coverage, often at no additional premium, or you can choose a plan without prescription drug coverage.

Congress added Medicare Advantage plans to give Medicare participants more choices about how they receive their health care. Medicare Advantage plans put a cap on your out-of-pocket costs for Part A and B services covered by the plan. This offers financial protection. You must be enrolled in both Part A and Part B to be eligible for a Part C plan.

We try to offer Medicare Advantage plans where the cap, or maximum on your out-of-pocket spending, fits your budget. Our plans give you access to a large network of doctors. With the plans provided through the Trust you will have options with both prescription drug coverage and a coordinated care Medicare Advantage PPO with prescription drug coverage built in. You can't combine a stand-alone prescription drug plan with a coordinated care Medicare Advantage plan.

Quick Overview

Part D – Provides help with the cost of prescription drugs

Description

Medicare Part D helps pay for the prescription drugs you use. Medicare Part D coverage is not automatic. You decide whether to enroll in a Medicare Part D plan. If you delay signing up after you are eligible, though, you may pay a penalty on your premium, unless you qualify for an exception.

Prescription drug coverage is an insurance policy you buy from private companies. You can buy a separate policy just for drugs, called a prescription drug plan (PDP). Or you can buy some types of Medicare Advantage plans that include drug coverage.

The federal government has created guidelines for the types of drugs that must be covered by drug plans and set minimum standards of benefits. Insurance companies that offer Medicare Part D plans must meet these standards. But all plans are not the same. They vary by cost and by their formulary, or list of specific drugs covered. You must be enrolled in Part A or Part B to be eligible for a Part D plan.

Quick Overview

MED SUPP - Medicare supplement insurance helps pay some out-of-pocket costs that come with Original Medicare.

Description

Medicare supplement insurance plans are standardized by the federal government. Each is labeled with a letter. Every plan with the same letter offers the same benefits, no matter what state it's offered in or by which insurance company. Massachusetts, Minnesota and Wisconsin standardized plans differently.

The level of coverage varies. There are standardized plans that cover all your Medicare deductibles, copayments and coinsurance, while others leave some costs for you to pay on your own. Medicare supplement plans provide nationwide coverage.

How does cost sharing work?

Four words you have got to know

Understanding how Medicare shares costs is a big part of choosing the right Medicare benefits for you. You need to understand these terms: **premium, deductible, co-pay, co-insurance**. These words have special meanings in Medicare, and mastering them will pay off. The words are names for different methods that Medicare uses to share the cost of your care with you. Medicare's reasoning is simple. If you pay some of the cost of the health care you use, you will use it more carefully. And you will be encouraged to do things that help keep you healthy and that may reduce your need for medical care.

1

Premium

Premium is a fixed amount you have to pay to participate. Most Medicare premiums are charged by the month.

Cost-Sharing Methods

2

Deductible

Deductible is a preset amount that you have to pay first, before Medicare or a private insurance company begins to help with your costs.

3

Co-Payment

Co-payment is a fixed amount that you pay, like \$10, for a service or product. Some people call this a "co-pay".

4

Co-insurance

Co-insurance is splitting your health care costs with the plan on a percentage basis. For example, you pay 20% and the plan pays the remaining 80%.

It is easy to focus only on your premium amount when you shop for plans and policies, but you should also look at how much you will spend on cost sharing (deductibles, co-pays and co-insurance). Sometimes a plan with a lower premium could cost you more because it has higher cost sharing than the services you use. Remember that the Medicare premiums, deductibles and co-pays may change from year to year.

Open Enrollment

Annual Enrollment Periods

The Annual Enrollment begins November 01 - December 31 each year. Enrolling as early as possible allows you plenty of time to receive your new insurance cards in a timely manner. Don't confuse the Trust's open enrollment period with the Individual Market's open enrollment period which is from November 01 to December 7th. This Trust is a Group plan; therefore, we are able to extend the annual open enrollment period until December 31st of each year.

Enrollment for Newly Eligible Retirees or Retirees Enrolling for the 1st Time in Our Plans

If you are retiring or becoming Medicare eligible, your enrollment period to enroll in a Medicare plan will follow the same timeline that you would follow if you were enrolling in the individual market. Your Pre-65 insurance will typically end on the last day of the month prior to your 65th birthday. You will have up to 3 months prior to your 65th birthday and 3 months following your 65th birthday to enroll in a Medicare plan. If you do not enroll in a Medicare plan during that time period, you may be subject to permanent penalties from Medicare for not enrolling in a timely manner, so make sure that you take the proper steps to get enrolled in the time allowed.

What can I change during Open Enrollment

During open enrollment, you can:

- Return to Original Medicare from an existing Medicare Advantage (MA) plan if you are currently enrolled in a Medicare Advantage plan
- Enroll in Medicare Plan D (prescription drug plan) or move to another coverage level in the Trust.
- Drop your Plan D coverage if you plan to get your prescription drug coverage through a private insurance provider.
- Switch from one Medicare Advantage plan to a different one.
- Make changes to your Dental or Visions options available to the eligible plan participants and their dependents, regardless of their age.

A Members' first fitness kits will be mailed within 10 days of enrolling. If they picked out a second kit at the same time as the first, both kits will be shipped together.

Q If a member chooses the Silver&Fit Home Fitness program during the enrollment process and then changes their mind, how long must they wait before they can join a fitness center or YMCA?

A Members may call Silver&Fit Customer Service at any time to enroll with a participating fitness center or YMCA. The effective date for the fitness center or YMCA will be the day following their call. After switching to a fitness center or YMCA, the member will not receive any unsent home fitness kits.

Q If a member is participating in the Silver&Fit Home Fitness program and then switches to a fitness center or YMCA, does the member need to return the fitness kit(s)?

A No, the member may keep the kit(s).

Q Do members ever have to pay a fitness center or YMCA directly for Silver&Fit benefits?

A No. However, members are responsible for paying any fees associated with upgrading their fitness center or YMCA membership, or for using any non-standard services or amenities that require separate, non-standard fees.

Q What is Silver&Fit Healthy Aging Coaching and how does it work?

A At no additional cost, members can enroll into the Silver&Fit Healthy Aging Coaching program which includes weekly one-on-one telephone-based sessions with a trained health coach (up to 52 sessions per benefit year). These sessions are tailored towards older adults and cover health and wellness areas like being active, healthy eating, lifestyle choices, aging well, and managing conditions. The initial kick-off session lasts for up to 30 minutes, with subsequent sessions lasting approximately 15 minutes.

Q What is the Silver&Fit Connected!™ tool?

A The Silver&Fit Connected! tool is available through Silver&Fit's ASHConnect mobile app or at www.SilverandFit.com. The Connected! tool allows members to track their exercise and activity from approved wearable fitness devices, including Apple Watch®, apps, and exercise equipment (a full list is available online). After logging their information on their chosen device, the member needs to pair their device with the Silver&Fit Connected! program so their exercise and activity can be converted into points to earn rewards (if applicable). Purchase of a wearable fitness device or application may be required and is not reimbursed by the Silver&Fit program.

Q How does a member earn rewards through the Silver&Fit Connected! program?

A Rewards, if available, are outlined by the member's health plan. Members are rewarded based on the number of points they accumulate within the reward period.

Q What are the types of rewards members can choose from?

A When members reach 300,000 points in a benefit quarter, they can choose to receive a Silver&Fit-branded visor, baseball cap, or floppy hat. After the initial hat reward, members receive a collectible pin each time they reach 300,000 points in a subsequent quarter.

Q How does a Silver&Fit member dis-enroll from the program?

A Members must call Silver&Fit Customer Service at 1.877.427.4788

Prescription Drug Plan Information

The 2022 Coverage Gap (Donut Hole) and what it means for your cost when purchasing Prescription Drugs

The donut hole is a gap in the Part D coverage of your prescription drug costs. The Initial Coverage Limit (the negotiated retail dollar value of a senior's prescription drug purchases used to determine when a person enters into the Donut Hole or coverage gap phase of their Medicare Part D plan).

Medicare beneficiaries will enter the donut hole or coverage gap when the total negotiated retail cost of their prescription drug purchases reaches the initial coverage limit that is determined each year by CMS. In 2021, the donut hole began when your total out of pocket cost including the cost to your provider is \$4,130. -True Out-of-Pocket Costs (the actual dollar figure a person spends to get out of their donut hole or coverage gap, excluding monthly premiums) – The out-of-pocket threshold (or TrOOP) will usually increase each year by CMS. People who reach their donut hole will receive a discount on brand-named drugs while in the coverage gap. However, the full retail cost of medications purchased in the donut hole will still count toward meeting a person's total out-of-pocket expense limit.

Coverage in the "Coverage Gap" for 2021 was 25% for Generics and 25% of the cost of the Drugs for Brand and Preferred Brand Drugs. Once an enrollee reaches the total out-of-pocket limit during the coverage gap of \$7,050, they are bumped into "catastrophic coverage."

Catastrophic coverage guarantees that once an enrollee has spent up to his or her plan's out-of-pocket limit for covered prescriptions the person will only pay a nominal coinsurance fee or copayment for their drugs for the rest of the

year. This currently works out to the enrollee paying about 5% or \$3.60 whichever is greater for Generics, and \$8.95 for all other drugs.

Medicare's Program for Extra Help with Medicare Prescription Drug Plan Costs

Low Income Subsidy (LIS): Social Security provides the Program for extra help with Medicare Prescription Drug Plan Costs, also called the Low-Income Subsidy (LIS), for people who have limited income and resources. To learn more about this program, please visit www.ssa.gov/prescriptionhelp or you can call Social Security at 1-800-772-1213 (available 24/7).

Prescription Drug (Part D) Coverage is Important even for those not currently using Drugs!

Please remember, everyone on Medicare must be enrolled in a Part D Prescription Drug plan when you become eligible for Medicare, or you will be subject to a penalty that will affect your premium for the rest of your life, if you fail to enroll in a timely manner. It does not matter if you do not use drugs or purchase your drugs at a local pharmacy such as Walmart and you only inexpensive generics. You must be enrolled in a Part D plan to meet Medicare requirements when you become Medicare eligible.

ATTENTION

Medicare had not released the Coverage Gap at the time this brochure was printed for 2022 enrollment. The Catastrophic coverage of \$7,050 is the only update available for a 2022 update. **Please check www.Medicare.gov for updated numbers.**

What is a Medicare Advantage Plan (also called Medicare Part C)?

Medicare Advantage is a plan in which a private insurance company contracts with and is approved by Medicare to provide covered healthcare services. With this type of plan, you receive all Medicare Parts A and B benefits and additional benefits in one plan. Two common types of Medicare Advantage plans that may be available are PPOs or HMOs, which work differently than Secondary plans. If you elect to join a BCBSM Medicare Advantage PPO plan offered through the Trust, the plan will provide your Part A (hospital insurance) and Part B (medical insurance) benefits and you can bundle this medical insurance to include a BCBSM Medicare prescription drug coverage (Part D).

You must continue to be enrolled in Part A and Part B of Medicare to be eligible to enroll in a Medicare Advantage plan. In addition, since the BCBSM Medicare Advantage PPO plans offered are group Medicare plans, you have the ability to enroll now or at another time during the year when you experience a life event. When moving to a group plan you don't have to wait for the "Medicare Annual Enrollment Window".

The Centers for Medicare and Medicaid Services (CMS) regulate the Medicare Advantage plans and determine the rules by which the contracted insurance carriers, such as BCBSM, are required to follow. The plans are In Network Plans if you use a doctor or hospital that accepts Medicare. The three BCBSM Medicare Advantage PPO plans the Trust offer are (1) BCBSM Diamond MA PPO Plan with the BCBSM Medicare Prescription Drug Plan (High), and (2) BCBSM Emerald MA PPO Plan with the BCBSM Medicare Prescription Drug Plan (High).

With Medicare Plus Blue PPO you can visit any health care provider you'd like without a referral. With your PPO plan, you can choose any doctor or hospital that accepts Medicare. E-HEALTH

Telehealth Services

Medicare has temporarily expanded its coverage of telehealth services to respond to the current Public Health Emergency. These services expand the current telehealth covered services, to help you have access from more places (including your home), with a wider range of communication tools (including smartphones), to interact with a range of providers (like doctors, nurse practitioners, clinical psychologists, licensed clinical social workers, physical therapists, occupational therapists, and speech language pathologists). During this time, you will be able to receive a specific set of services through telehealth including evaluation and management visits (common office visits), mental health counseling and preventive health screenings without a copayment if you have Original Medicare. This will help ensure you are able to visit with your doctor from your home, without having to go to a doctor's office or hospital, which puts you and others at risk of exposure to COVID-19.

- You may be able to communicate with your doctors or certain other practitioners without necessarily going to the doctor's office in person for a full visit. Medicare pays for "virtual check-ins"—brief, virtual services with your physician or certain practitioners where the communication isn't related to a medical visit within the previous 7 days and doesn't lead to a medical visit within the next 24 hours (or soonest appointment available).
- You need to consent verbally to using virtual check-ins and your doctor must document that consent in your medical record before you use this service. You pay your usual Medicare coinsurance and deductible for these services.
- Medicare also pays for you to communicate with your doctors using online patient portals without going to the doctor's office. Like the virtual check-ins, you must initiate these individual communications.
- Since some people don't have access to interactive audio-video technology needed for Medicare telehealth services or choose not to use it even if offered by their practitioner, Medicare is allowing people to use an audio-only phone.
- You may use communication technology to have full visits with your doctors. Also, you can get these visits at rural health clinics and federally qualified health clinics. Medicare pays for many medical visits through this telehealth benefit.

Network access information

With Blue Dental PPO Plus, members can choose any licensed dentist anywhere. However, they'll save the most money when they choose a dentist who is a member of the Blue Dental PPO network.

Blue Dental PPO network- Blue Dental members have unmatched access to PPO dentists through the Blue Dental PPO network, which offers more than 260,000 dentist locations nationwide. PPO dentists agree to accept our approved amount as full payment for covered services - members pay only their applicable coinsurance and deductible amounts. Members also receive discounts on noncovered services when they use PPO dentists (in states where permitted by law). To find a PPO dentist near you, please visit mibluedentist.com or call 1-888-826-8152.

1) Blue Dental uses the Dental Network of America (DNOA) Preferred Network for its dental plans.

2) A dentist location is any place a member can see a dentist to receive high-quality dental care. For example, one dentist practicing in two offices would be two dentist locations.

Blue Par Select Arrangement- Most non-PPO dentists accept our Blue Par Select arrangement, which means they participate with the Blues on a "per claim" basis. Members should ask their dentists if they participate with BCBSM before every treatment. Blue Par Select dentists accept our approved amount as full payment for covered services - members pay only applicable coinsurance and deductibles. To find a dentist who may participate with BCBSM, please visit mibluedentist.com.

Note: Members who go to nonparticipating dentists are responsible for any difference between our approved amount and the dentist's charge.
